## SKILLS

- HTML & CSS
- Javascript
- Next JS
- NodeJS/ExpressJS
- React JS
- Restfull API
- MongoDB, SQL Database
- **Other familiar knowledge:** OOP, MVC, Algorithm, Data Structure

## EDUCATION

**Bachelor of science in computer science engineering -American international university Bangladesh**

2019-2023; CGPA : 3.57

**Higher secondary certificate - Safiuddin sarker academy & college**

2018; GPA: 3.58

**Secondary school certificate- Safiuddin sarker academy & college**

2015; GPA: 5.00

## CAREER OBJECTIVE

Enthusiastic recent graduate with a strong foundation in web development and a passion for creating captivating user experiences. Leveraging proficiency in JavaScript, HTML, CSS, React JS, Next JS, Bootstrap, Tailwind, responsive design, and Git, I aspire to contribute my skills to a dynamic team. Through my internship experience as an application support at an online shopping platform, I gained valuable insights into the latest technologies, software, and corporate culture. Eager to apply my technical expertise, I am dedicated to collaborating on innovative projects that make a meaningful impact.

## PROJECTS

### • E-commerce Figma to UI coversion

**Summary:** I designed a simple landing page of an E-commerce platform from a given Figma design. After clicking on a product card of new arrival section, it will take user to the details of the product.

**Technologies:** next.js, JS with ES6, tailwindCSS, api data fetching, daisyUI, Flowbite, react-scroll, react-swipeable
